

Horizontal Paintbrush Stand

USER QUICK GUIDE

Introduction

The Horizontal Paintbrush Stand has a series of spaced horizontal slots to allow several paintbrushes to be rested and swapped between. The stand has a female 1/4"-20 UNC connection on the bottom so the stand can be mounted and adjustably positioned using commercially available camera mounting equipment.

Features

Usage

Connect a compatible mounting solution to the threaded portion on the bottom of the stand and position it appropriately.

Compatibility

This stand is compatible with a variety of commercial and DIY mounting systems that use a 1/4"-20 thread, such as camera tripod mounts. For example, a magic arm and a 3d printed C-Clamp Adapter make an easily adjustable solution that can mount to a table.

Specifications

- 208 mm Long x 65 mm Wide x 21 mm Deep
- 4 Brush Slots; 60 mm Spacing
- 1/4"-20 UNC Mounting

Cleaning

The stand can be wiped down with a damp cloth. Do not subject to high temperatures such as a dishwasher.
